FSF- Guideline for drawing up technical documentation

Error Notification

Code number 650

Changes of drawings, parts lists and wiring documents, company codes

Dear users of the FSF-Guideline,

The publisher of the FSF- Guideline for drawing up technical documentation has noted that Section 2 of Code number 650 contains an error regarding the structure of the revision number.

Please delete or black out the two sentences crossed out in red in your FSF-Guideline.

— **Change number**
The change number shall not exceed 20 print positions.

~~The company code indicates, which company has effected the original change.~~

~~A dash has to be marked between company code and internal company number.~~

Each change number may only be assigned once.

We apologize for the inconvenience.

An updated version of the FSF-Guideline is available in our Downloads section.
